Chimborazo goats to be used for cheese making

Enrichmond and Tricycle Gardens today that they will be utilizing the Chimborazo goats to make goat cheese:

"We're excited to be able to offer local, organic goat cheese," says Enrichmond's Executive Director John Sydnor.

"Named in homage to the recently cleared spot at the bottom of the hill, our little glen from under the park, we hope to be offering our "Fromunda Cheese" at local markets by the end of summer."
