

Greening America's Capitals

Progress, Preservation, and Opportunity on Jefferson Avenue

The City of Richmond was recently selected as one of five cities to receive the U.S. Environmental Protection Agency's Greening America's Capitals technical design assistance to help green the public spaces along the Jefferson Ave corridor.

Please join us to help envision how Jefferson Ave can...

- Be an inviting street that is safer for pedestrians and bicyclists
 - Be a vibrant street with thriving local businesses
- Better manage stormwater runoff with the addition of green infrastructure
- Honor its history as a gateway to some of Richmond's oldest neighborhoods

Project Introduction

June 9, 2015

6:30 PM to 8:00 PM

Family Resource Center

2405 Jefferson Ave

Public Open House

June 11, 2015

12:30 PM to 2:00 PM

Family Resource Center

2405 Jefferson Ave

Come help us design this important community space!
